# DOOR JAMB ARMOR

**THE MOST EFFECTIVE WAY TO REPAIR AND HELP PREVENT KICK-IN DAMAGE**

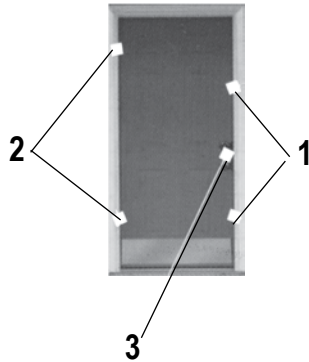

**Fix it once, secure it forever  
Install full set in less than an hour**

- Inexpensive and easy way to fix doorjamb that have already been broken and help prevent it from happening again.
- Helps landlords and apartment owners secure vacant properties and prevent vandalism and theft during renovation.

**This WILL Make You Money**  
 Every customer that replaces their locks should buy this product.  
 This will help you sell more high-end deadbolts  
 Add it on to every door that you sell  
 Not available in the "Big Box" stores

Standard Universal Ultra

### 1. Jamb Shield

The backbone fo the set, the Jamb Shield is a sleeve that wraps around the lock side of the doorjamb, making it extremely difficult to kick in. Jamb and hinge shields secure to stud with 3-1/2" included screws.

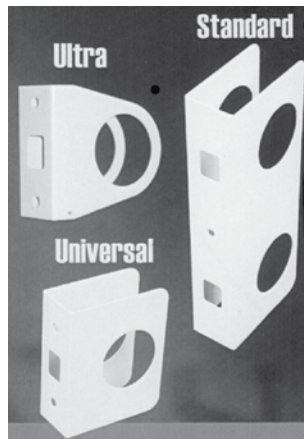

All Jamb Shields are 48" long.

### 2. Hinge Shield

Fits around the existing door hinges and help prevent hinges from being kicked in.

**HINGE SHIELD**

**DOOR SHIELDS**

### 3. Door Shield

Reinforces the lock area of the door and helps prevent the door from being pried open or splitting when kicked.

## DOOR JAMB ARMOR

**STANDARD:** Standard Jamb Shield, 2 Hinge Shields and Standard Door Shield. Designed for doors with standard (5-1/2" on-center) lock spacing. Best for reinforcing or repairing newer doors.

**UNIVERSAL:** Universal Jamb Shield, 2 Hinge Shields and Universal (2-piece) Door Shield. Designed for doors with non-standard (5" to 12" on-center) lock spacing

**ULTRA:** Ultra Jamb Shield, 2 Hinge Shields and Ultra (2-piece) Door Shield. Features knock-out holes to fit almost any lock spacing (or multiple deadbolts). Works on just about any door with a wooden doorjamb.

**LEVER ADAPTORS**

**LEVERON® Lever Adaptors  
Fit 3 Billion Standard Doorknobs**

- Approved by: Veterans Administration, TEE-84-036 Arthritis Foundation
- FDA Approved for Hi-Glow per 21 CFR 178.3297 (special order finish)
- Made in USA of High Performance Polymer, US Patent #4,397,489.
- Tougher than any die cast metal lever
- Will not corrode, in fact, nothing will stick to it, not paint, adhesive, magic marker, ore even metal plating.
- Leveron's polymer is a better electrical insulator than porcelain, as well as a low conductor of heat.

**LEVERON® Converts Existing Doorknobs to Lever Action for Comply with ADA**

- ANSI A117.1 4.13.9 Door hardware

- Installed quickly without removing doorknob
- One size fits all standard knobsets, right, left, inside, outside
- Engineered resilience to protect knobsets from tough use
- Meets handicapped, fire and safety requirements

Features a patented split-ring which opens and rejoins around teh neck of the knob. The Leveron handle with molded gaskets fits over the knob and is threaded onto the plit-ring, then tightened securely with a cusom wrench (included). The "invisible" fastening system and resilient construction minimizes theft or damage from vandalism.

## Roton Continuous Hinges

Visit [www.hagerhinge.com/](http://www.hagerhinge.com/) for more information on other models of continuous hinges available.

### Standard Duty Commercial Grade

Manufactured with thrust bearings spaced along the hinge length on 5-1/8" centers. The 83" Roton Hinges carries the door weight on SIXTEEN bearings.

### HD Heavy Duty Roton Hinges

Manufactured with thrust bearings on 2-9/16" centers. The 83" hinge carries the door weight on THIRTY-TWO bearings. Supplied with staggered screw holes to suit heavy duty applications such as high traffic entrance ways.

### Check the Load

Divide the weight of the door (including hardware), by the number of bearings in the Roton Hinge under consideration.

- Low frequency interior doors: 20 lbs per bearing
- Med. frequency interior doors: 15 lbs per bearing
- Med frequency exterior doors: 10 lbs per bearing
- High frequency exterior doors: 7.5 lbs per bearing

**83" length. Anodized Aluminum finish.  
 BZ: Bronze Finish**

**Markar Continuous Hinges**

can be ordered in a large variety of configurations. Visit [markar.com](http://markar.com) for more information.

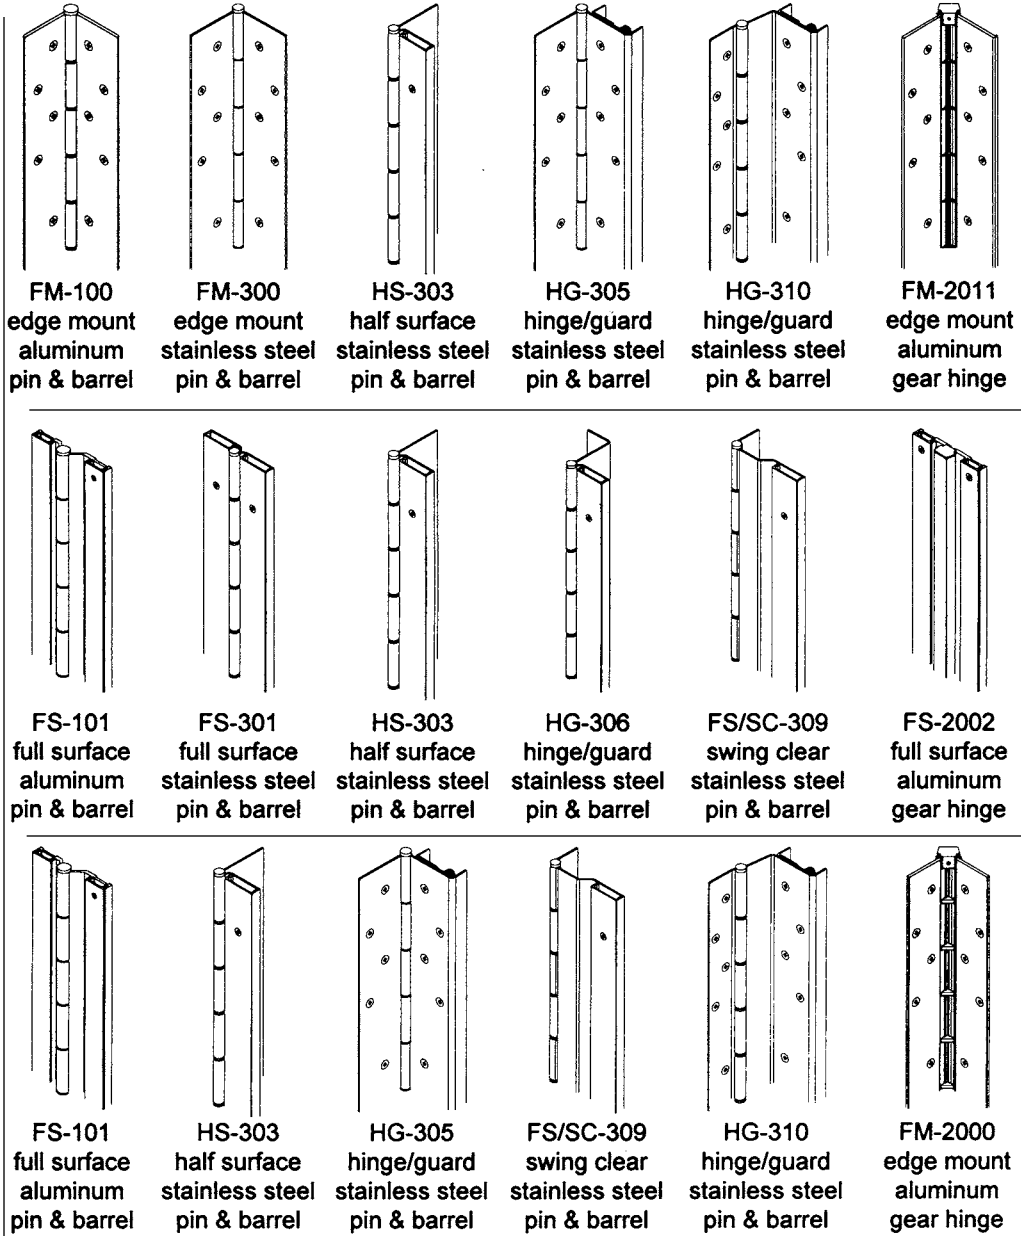

**Hinge Prefixes**

- EG Edge Guard
- FM Edge Mount
- FS Full Surface
- HG Hing/Guard
- HM Half Mortise
- HS Half Surface
- SC Swing Clear

**Hinge Series**

The series number indicates the type of hinge and base material used:

- 100 Aluminum barrel hinges with stainless steel pin
- 200 Plain steel barrel hinges with stainless steel pin
- 300 Stainless steel barrel hinges with stainless steel pin
- 400 Spring loaded aluminum toilet partition hinges
- 500 Stainless steel toilet partition hinges
- 800 Aluminum toilet partition hinges
- 900 Spring loaded stainless steel toilet partition hinges
- 1900 Reinforcing pivots
- 2000 Aluminum geared hinges with stainless steel bearings
- 2200 Aluminum geared hinges for 2" doors
- 3500 12 gauge stainless steel pin and barrel detention hinges

**Hinge Models**

The last two digits of the three-digit model number indicate the application

- 00 Edge mount (formerly full mortise)
- 01 Full Surface, 1/8" offset
- 02 Full surface, flush
- 03 Half surface, 1/8" offset
- 04 Half mortise, 1/8" offset
- 05 Edge mount hinge/guard
- 06 Half mortise hinge/guard

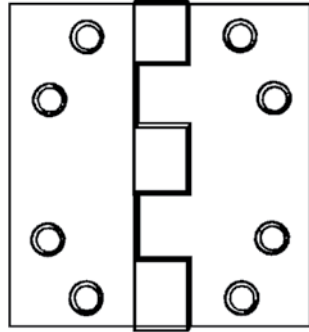

- 07 Double hinge/guard
  - 08 Edge guard
  - 09 Full surface, swing clear
  - 10 Swing clear hinge/guard
  - 11 Edge mount, self-aligning
- Other numbers are used for specific applications

Available in just about any finish you require.

Call your sales rep for more information or visit [www.markar.com](http://www.markar.com)

**ALUMA-GUARD**

The new Aluma-Guard is designed to protect aluminum framed, glass, store front doors. It forms a shield that will protect both the latch area from attack and the lock cylinder from wrenching.

Mounting is easy with one carriage bolt in the top and a drive rivet in the bottom.

- Formed from cold rolled steel
- 6-1/2" high, 3-1/2" wide, and 7/64" thick.
- Can be installed with the lock still in the door.
- Powdercoat finish

**3/4" Offset Pivot Sets**

Engineered and designed for durability, style and versatility. All cases are aluminum. Pivots operate on full race ball bearings.

Complete with 1/2" vertical adjustment. No possibility of door sag since entire weight of door rests on floor mounted pivot. Easy to install. Durable, all weather proof acrylic coating protects pivot from deterioration. Top portion has spring loaded hardened pin for easy assembly. When door is in locked position, these pivots are completely burglar-proof. Easily installed or removed from door in only a few seconds.

**FEATURES**

- 1/8" Vertical Adjustment.
- All-weather proof.
- Completely theftproof, yet easy removable, and replaceable in unlocked position.
- Non-handed.
- Smooth, precision-made select ball-bearing operation.
- Complete with screws, anchors, and mounting materials.

**DorGard III™**

HPC/Scotsman

A common problem with narrow stile aluminum doors is attack at the door jamb. An unprotected door is subject to a pry bar spreading the door and the jamb, or even ripping out the jamb, allowing unauthorized entry. Sawing the bolt has also been a means to gain unlawful entry. DorGard III™ will thwart all of these attempts, as well as guard the lock cylinder.

The DorGard III™ provides the same cylinder protection as the DorGard II™, plus has the added benefit of a hardened steel latch protection plate. Cast in one piece, with ribs on the back for added strength, the latch plate has two pins that will rest in holes drilled into the door jamb. This innovative pin feature adds another level of security to the door by linking the door and the jamb together. The perfect choice for electric strike applications; it adds security to the convenience of electric strikes. It completely conceals the area of the lock bolt and strike, and blocks all access to the lock and cylinder. The DG3 can be used with any cylinders from 15/16" to 1-3/8" (2.38 x 3.50cm) in length.

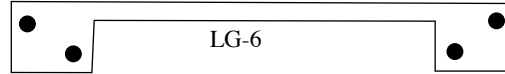

Non-handed so it can be used on right or left handed doors.

DG-series door guards are available in either a Satin Stainless or Duracoat Bronze finish, providing an extremely durable and attractive finish. Mounting hardware and illustrated installation instructions are included. We suggest using the HPC TK3 installation kit.
