Tamper Proof Key Rings

*Morse Watchmans*

**KEY-RINGS™ TAMPER-PROOF KEY RING DEVICES**

Morse Watchmans' Key-Rings is the simplest way to ensure peace of mind. Key-Rings is the "no tools needed," economical choice for the demanding security professional.

Using only your hand, an easy close-and-lock system requires only the power of your hand to seal it shut. Key-Rings boast an exclusive tamper-proof design which ensures keys cannot be removed. They're constructed from 5/32" of high quality, stainless steel. The only way a perpetrator can get the keys off the Key-Rings is to use a hacksaw or some other extreme cutting measure.

*For Pricing and Availability, Call your sales rep!*

Available in different ring size diameters for a varying amount of keys. It's the perfect replacement for unreliable welded rings. Key-Rings all have colored sealing hubs that lock the key ring firmly in place. The hubs come in six different colors for security and departmental coding purposes. The hubs can be replaced, allowing Key-Rings to be reused.

To prevent substitutions, the serialized hubs have unique identification numbers. Not sure which Key-Rings that you are looking for? Just read the ID number on its hub and you'll know! Key-Rings is a smart and cost-effective choice for anyone who needs to keep his or her keys safe and secure. Morse Watchmans offers a one-year warranty on Key-Rings, so your satisfaction is completely guaranteed!

**C-Clips**

1" nickel plated tempered split key ring,  
 No. 461 is supplied with a 1-1/8" ring.  
 No. 460 measures 2-3/8"  
 No. 461 measures 3-1/8" without split ring.

JAR Assortments

KSI

**KEY SYSTEMS, INC**

Each ring has its own unique serial number.

**Tamper Proof Key Rings®**

- Prevent Key Removal
- Not Resealable if Opened
- Replaces Welded Rings
- Serialized to Identify Rings & Prevent Substitutions
- 4mm Stainless Steel

Seal key rings in seconds and prevent undetected key removals or substitutions. If forced open, the seal is destroyed showing that the ring has been tampered with. A serialized number on each ring prevents ring substitution. The 4mm diameter ring and seal permits smooth movement of keys around the ring. Save time with portable tools that go to the job site. Eliminate the costly practice of welding or brazing key rings which can be resealed without detection and make a ring brittle and subject to breaking

Order #	Item #	Size	Catalog Price

442-0050	278	1-5/8 inch (4cm)	<b>7.12</b>
442-0060	270	2 inches (5cm)	<b>7.80</b>

**KEY SYSTEMS, INC TOOLS**

**Ring Crimping Tool. 271D**

Squeezes the connection where the two ends meet creating a permanent seal. The gold crimper's black handle lifts to reveal three small rollers with rounded ridges that squeeze the connection where the two ends of the ring meet, creating a permanent seal.

CRIMPING TOOL

**Ring Cutting Tool. 271X**

Used to cut open a Tamper-Proof Key Ring™ once it's been sealed. The red cutting tool operates just like the crimper, with the same black handle, except here the three rollers have sharp ridges for cutting through the rings.

CUTTING TOOL

**Ring Closing Tool. 271V**

Closes any size ring in preparation for crimping. The closing tool's black body has five shallow grooves and one deep trench. At its tip is a small black knob used to adjust the tension on the silver swing arm that pulls the ring closed and locks it in place.

CLOSING TOOL

# Preparation is everything.

It's 2am, the rain is sideways and your lockout is anxiously waiting. On nights like this, you've learned to expect the unexpected. These are times you cannot compromise with your tools. That's why your van is equipped with American made locksmithing products from HPC. Locksmiths around the world roll with HPC because in this business, preparation is everything.

**Tiger SHARK™**  
No. 123TSHARK  
This incredible machine has all of the codes built in and an easy-to-use touch screen. You can cut practically every key your customers need on this one machine.

**Mortise Cylinder Lock Tap & Die Set**  
No. CLTD-5  
Tired of stripped cylinders and housings? You can repair them both using this indispensable kit from HPC.

**Mini Bore Tubular Pick**  
No. TLP-7MB  
The college kids are always losing the keys to their laptop locks. With this new pick from HPC, you can open them in seconds.

**Skinny Flipper™**  
No. CO-89  
If you get a call for a lockout on an Audi TT or other tight door openings, this will be the perfect tool for the job.

**Flip-It™**  
No. FIT-2  
This tool is a real time-saver! When you need to, just flip the plug to the opposite direction and open the door. Nothing is faster!

**HPC, Inc.**  
3999 N. 25th Avenue  
Schiller Park, IL 60176 USA  
Tel: 847.671.6280  
Fax: 847.671.6343  
www.hpcworld.com

**Power Wedge™**  
No. PW-100  
Just slide this tool into the top of the car door; turn the knob and the door wedges open, giving you the gap you need for your HPC car-opening tool.

**Stainless Steel Pick Set**  
No. PIP-2000  
HPC's stainless steel picks are thin, strong and flexible. They will outlast every other pick you use.

**F-Series Opening Set**  
No. FSR-100  
This is simply the fastest (non-destructive) method for opening Schlage F-Series knobs and levers without a key.
