Features

Access Control:	Mechanical pushbutton lock—eliminates problems and costs associated with issuing, controlling, and collecting keys and cards. Ideal for turning an ordinary filing cabinet into a security cabinet. Meets U.S. Department of Defense requirements for storage of secret and classified material when used with an appropriate lock.
No Battery:	Fully mechanical lock eliminates the material and labor expense of battery replacements
Locking Device Options:	Self contained tubular deadbolt
Number of Codes:	Single access code—one easy to manage code for all users
Programming:	Lock is easily programmed via keypad without removing lock from the door
Handing:	Non-handed
Operation Modes:	Single credential—access
Economical:	A cost effective access control solution
Options:	Model FG10: Pushbutton lock File Guard Model F2500: For use with a padlock (not included) Model F2570: For use with a padlock (not included) Model F2580: Built in 5-pin key lock (Schlage “C” or Weiser keyway) in a rugged steel housing
